

How To Unify The Illinois GOP

- 1) The ILGOP should never allow party resources to be used in Republican primary contests!! The party should remain neutral and each Republican candidate be on equal footing as far as the party is concerned to present themselves to the electorate.
- 2) The ILGOP should not condone or support the HRO or SRO using its resources to meddle in Republican primaries.
- 3) Once the electorate has chosen a candidate from a Republican primary contest, the ILGOP should undertake to support this candidate to the fullest extent possible in an effort to defeat the Democrat.
- 4) The IL GOP should not condone the taking of financial donations by Republican candidates, caucuses, or elected officials from individuals or organizations who actively engage in political activities which are contradictory to the Republican platform.
